

Background

- Barneys New York is an American chain of luxury department stores headquartered in New York. The client is a specialty retailer of high end apparel goods having leading designers show case their latest collections on their website.
- Client provides personalized shopping services in stores, and wanted to extend the same experience to the eCommerce platform.

Objectives

- Build an Exclusive Private Sale feature accessible only to a select group of customers, allowing them access to Private Sale products which are not accessible to other customers through browse or search.
- Ensure customers can complete purchase with both exclusive as well as regular products in the same cart.
- Ensure Private Sale pages are secure, and access validation is performed at every customer interaction.
- Enable Same Day Delivery method for select group of customers, based on time of day, day of week, products in cart, shipping address and customer segment.
- Ensure business team can independently manage scheduling of Same Day Delivery availability and related business rules, with no involvement from technology team.

Solution Delivered

- Created a Private Sale experience for select customers, where access is validated at every step of the purchase process to ensure only customers with access can view/buy exclusive products.
- Checkout process updated to validate product access when customer is buying an exclusive product.
- Filtered Private Sale products from Search results with no negative performance impact.
- Ensured customers with access can buy exclusive products and regular products within the same cart utilizing existing checkout process.
- Built scheduler to manage availability of Same Day Delivery, allowing business users to control when this shipping option is available.
- Ensuring any changes in geographic areas covered by Same Day Delivery can be done through simple configuration through business manager.
- Built capability to switch feature on/off using configuration in case any major event disrupting or altering shipping schedules.

Results

- Increased sales of big-ticket exclusive merchandise online, with additional 35% of the exclusive items sold within 2 weeks of launch.
- Enabled online sale of exclusive products that traditionally were available only in stores.
- Business team independently managed the scheduling of Same Day Delivery during holiday season.
